

SVE HARDENER

SVE Hardner is a quality product which can be used in PU and Melamine paint.

a. **SVE Hardener PU:** It is an Isocyanate based cross linking agent used to cure acrylic polyol to make PU bond. It is recommended to be used for non-yellowing PU finisher. The important features are fast curing & high gloss with excellent adhesion, high chemical resistant, UV resistant and gives long & scratch free life.

Pack: 200ml, 1litre

b. **SVE Hardener Melamine:** It is recommended to be used for Melamine based paint.

Pack: 100ml, 1 litre
